16 selected clinical PET series (DICOM) + ROIs (NIfTI)
→ compute SUV_{bw} (no interpolation)
→ submit SUV_{max} and SUV_{mean} (rounded to 2 decimals)

Summary

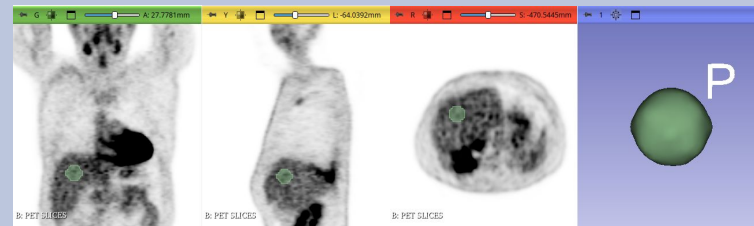

Digital Reference Objects v3:

- 8 teams submitted results, high agreement
- please also submit results from **old software version**

Validation Dataset:

- **will be shared soon** (DICOM + NIfTI mask)
- submit results without other processing

Thank you for your cooperation and feedback!
